

### Features:

- Pre-coded Key Fobs, Door/Window Contacts or Motion Sensor Transmitters
- 8 Channel Self-Learn Super-Het Relay Output Receiver. Each Output can be selected as any one of NO or NC and as Toggle Latching, Momentary or Timed
- 12V DC Power
- Learn up to 24 Transmitters to a Receiver
- Typical range of up to 100M depending on the Environment in which it is being used
- 868 MHz - CE (RED) and RoHS approval
- EPIR008 and EWM008 both have:
  - Selectable Power-Save Mode
  - Selectable Low Battery Transmission
  - Anti-tamper
- EPIR008 has:
  - Selectable Pulse Count
  - 9M Detection Pattern
- EWM008 has:
  - Input Terminal Block for NO or NC Trigger Attach to pressure mats/door contacts etc
  - A built-in Reed-Switch

**ETX008/2 Two Button Key Fob**

**ETX008/4 Four Button Key Fob**

**EWM008 Door/Window Contact**

**EPIR008 PIR Motion Sensor**

**ERX008 Eight Channel Receiver**
