

Features:

- Water Level Sensor – suction cup attaches to side of tank/bath etc
- When the Water/Liquid level is reached, the Sensor will send an Alert to your Smart Phone or Tablet
- Alert Notifications can be silent or accompanied by an Alarm Tone
- Each Sensor has its own built-in WIFI module to communicate directly with a standard Router or Extender rather than via a Hub
- Simply download the free APP and pair the Sensor to a Router or Extender
- Additional Low Battery and Loss of Signal Alerts sent
- Powerful free of charge Android or iOS APP for your Smartphone or Tablet plus free life-time Cloud Service
- Up to 100 individual Devices can be registered and seen in the APP & shared with other Smart Phones
- Super Low power consumption – 6000 Triggers
- APP records last 30 activations with time and date stamp
- All units can be automatically disabled for up to 4 different daily time periods
- Personalize your Device in the APP by adding a description and a photo
