Internal Dimensions	7 x 4x 1.18 Inches
Power Input	5V 2A
USB Output	5V 1A
LED Power	2W
UV Wavelength	253.7nm

### Operating Instructions

1. Power up the multi-functional UV sterilizer box by inserting the 5V charging cable(supplied) into the Box's charge point on the left-hand side of the unit, with the USB socket into a USB charger
2. Put your mobile phone, iPad, tablet, watch, jewellery etc into the box and close the lid.
3. Press the "Sterilize" button to start sterilizing. You will hear a voice prompt saying, "Disinfection Process" and the 25% LED will light up. Sterilization will be completed in around 5 minutes once the 100% LED lights up.
4. If aromatherapy is required, simply add some fragrance liquid to the inlet and press the "incense" button to start the aromatherapy.
