- Remote Control has a typical range of up to 30M depending on the Environment in which it is being used
- Ideal for sterilizing Households and Offices
- Choice of Lamp Colour – Black or White
- 110/220V DC Power
- UVC Wavelengths of 185 + 254 nm
- Highly functional – multiple purpose
- CE and RoHS approvals

Technical Specifications:

Product Reference Number: KE00200
Rated Power: 38W
Rated Voltage: 110/220V
Rated Frequency: 50/60HZ
UV Wavelength: 185 + 254 nm
Product Size: 210mm*110mm*460mm
Timer Operation ON Time: 15, 30 or 60 mins
Range of Remote Control: Up to 30 Meters
15 Mins Sterilization Mode: Suitable for disinfecting Toilets, Bathrooms and other small spaces
30 Mins Sterilization Mode: Suitable for disinfecting up to 40m² - Quick Disinfection
60 Mins Sterilization Mode: Suitable for disinfecting up to 40m² - A More Thorough Disinfection
